-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☐ Claim(s) 1-36 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☐ Claim(s) 1-36 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. ____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

- 6) ☐ Other: ____.

Drawings

The drawings submitted 3/5/01 are acceptable for examination purposes only. Upon allowance, formal drawing are required.

Information Disclosure Statement

The patent application file lists an Information Disclosure Statement submitted by the Applicant on 1/24/01. However, the IDS is not physically in the case and was presumably lost by the Office. Therefore, the examiner is not able to consider the IDS at this time.

The examiner respectfully requests that the Applicant submit a copy of the IDS so that it may be considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3, 15, 27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 3, 15, and 27 recite “providing lending, closing, title tax, government, permits, insurance, inspection, appraisal, RESPA, utility, warrantee, and moving services”, but the specification as understood by the examiner does not show that the third part website provider provides those services. For instance, it is not clear how the third party website provider would provide government services. In examining the claims on the merits it was assumed to mean providing information about those services.

Claims 10, 22, and 34 recite that the third part website provider provides web tools comprising “escrow, e-business, job reports, attendance, ..., next day activity lists, job logs...”. However, as understood by the examiner, the specification does not show all of these web tools. For instance, it is not clear that the website provider provides escrow (or that escrow is a web tool), or that the website provider prepares activity lists. Due to uncertainty regarding the interpretation of the claims, no examination on the merits is attempted. The lack of an art rejection should not be interpreted as an indication of allowable subject matter.

Claims 11, 23, and 35 recite that the step of collecting the fee or commission based on the views and selections of the customer comprises “collecting up-front access, semi-custom web design, and data service fees or commissions”. However, as understood by the examiner, the specification describes these as additional fees that can be charged in an alternate embodiment. In examining the claims, it is interpreted that the claimed charges are further collected in addition to the commission based on customer views and selections.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 7-9, 13, 19-21, 25 and 31-33 are rejected under 35 U.S.C. 102(a) as being anticipated by “RFP Marketing Opportunities Abound At: ‘Design Your Dream House’” (RFP).

RFP shows providing a website by a third party provider for use by the customer in view and selecting product options; providing a variety of related forms and services; receiving through the website a view and selection of an option and collecting a fee based on the products viewed and selected by the customer.

As to claim 7, it is noted that RFP shows collected data regarding sales.

As to claim 8, it is noted that RFP shows allowing manufacturers, sub-contractors, and vendors to view potential orders, groups of orders, and products viewed (and ordered) by customers in order to provide bids.

As to claim 9, it is noted that RFP shows providing web and communications tools to the builder, sub-contractors and suppliers.

As to claims 13 , 19-21, 25, and 31-33, it is noted that the apparatus to perform the claimed tasks is shown since RFP shows accomplishing those tasks via computer and such apparatus is required in order to perform those tasks.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 11, 12, 15, 23, 24, 27, 35 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over RFP.

As to claims 12, 24, and 36, RFP shows all elements except advertising products on the website. However, it is notoriously old and well known in the art to allow advertising of products or services on a website. It would have been obvious to one of ordinary skill in the art to do so in order to get additional revenue from advertising.

As to claims 3, 15, and 27, RFP shows providing purchase information and pre-purchase information. It does not show providing the other information types. However, it is notoriously old and well known in the art to provide such information. It would have

been obvious to one of ordinary skill in the art to do so in order to provide useful information to clients (and therefore attract more users to the site) and to collect additional revenue via affiliate programs with service providers.

As to claims 11, 23, and 35, RFP shows all elements except charging up-front access, web design fees and data service fees to the builder and advertisers. However, it is notoriously old and well known in the art to do so. It would have been obvious to one of ordinary skill in the art to charge such fees in order to recover costs of resources used by the builders and advertisers.

Claims 2, 4-6, 14, 16-18, 26 and 28-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over RFP in view of Fino et al (5,689,705).

As to claims 2, 14, and 26, RFP shows filtering and supplying product information. It does not explicitly show providing contract, financing, closing and post-sale forms and information. Fino et al show forms and information relating to contracting, financing, closing, and post-sale. It would have been obvious to one of ordinary skill in the art to modify the method of RFP by providing such forms and information in order to speed and facilitate the sales process.

As to claims 4, 16, and 28, RFP shows all elements except an online deposit system. Fino et al show an online deposit system comprising a system for scheduling and tracking the deposit online. It would have been obvious to one of ordinary skill in the art to modify the method of RFP by providing an online deposit system in order to provide an easily accessible status of the deposit.

As to claims 5, 17, and 29, it is noted that Fino et al show purchasing extras (options) using the online deposit system in that options are purchased, the overall price determined, a contract written and the deposit scheduled.

As to claims 6, 18, and 30, RFP shows all elements except an order verification and tracking system. Fino et al show an order verification and tracking system. It would have been obvious to one of ordinary skill in the art to modify the method of RFP by providing an order verification and tracking system in order to provide an easily accessible status of the order.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
